SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Paul Willott, GREETING: You are hereby required to appear in an action commenced against you as defendant by Mary Elizabeth Willott, as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a divorce from the bonds of matrimony existing between you and plaintiff, and for the custody of your person and her minor child, viz: Albert P., aged 10; Mary T., 10; Robert, 9; Anna, 7, and George, 5 years; on grounds alleged of your wilful desertion of her one year; of your habitual gross drunkenness contracted since marriage with her, incapacitating you from contributing your share to the support of her and your family, extreme cruelty on your part to her, and your neglect to provide the common necessities for her and your family, where such neglect was not the result of poverty on your part which you could not have avoided by ordinary industry, for one year and more; that you are a man of evil manners and example to your children, unfit to have custody of your children, and she is fit and proper to be their custodian; that you and she were married the 16th day of March, 1874, and that she has resided six months and more before the commencement of this suit in Washoe county, State of Nevada, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand this 6th day of July, 1888.

THOS. E. HAYDON,
Plaintiff's Attorney.

NATIONAL
Republican Ticket.
FOR PRESIDENT,
BENJAMIN HARRISON
OF INDIANA.
FOR VICE-PRESIDENT
LEVI P. MORTON,
OF NEW YORK.

Another Democratic manufacturer, Charles E. Stevens, of Syracuse, N. Y., has come out for Harrison and Morton because he cannot support the ticket representing his party platform. It is notable in this connection that the Syracuse Herald, a Democratic paper which supported Cleveland in 1884, after printing Mr. Stevens' letter, says: "These are precisely the reasons that induce the Herald to withdraw its support from the National Democratic ticket." As the Herald is a paper of a great deal of local influence there is mourning among the Democrats of that section.

The City of New York and City of Paris, two new ocean steamers, are reported to have been built in foreign ports with American capital. They have been rather extensively cited as furnishing instances of citizens of the United States being forced to invest their money abroad and sail it under a foreign flag. It is now stated that about 80 per cent of these vessels is owned by the British builders, and that the case is one of "British gold" employed under the cloak of American enterprise.

The Chicago Tribune regrets to puncture President Cleveland's reputation as a coiner of phrases, but it must be done. He is credited with originating the saying that "the object of war is the attainment of peace." This phrase is several hundred years old. The motto on Oliver Cromwell's crest was "Pax queritur bello." The crest was given to his great-grandpapa, Sir Richard Cromwell, by Henry VIII.

Mrs. Cleveland has compromised. An intimate friend of the family paid a morning call at Oak View less than a week ago and complimented Mrs. Cleveland on the apparent fact that she looked so well without a bustle, when Mrs. Cleveland proudly acknowledged that she had resumed the bustle, but that it was a tiny, tiny mite of a one!

Miss Anna Dickinson is the first campaign orator really engaged by the Republicans. Of course there will be hundreds of them from Mr. Blaine down, but she is the first to have been assigned to duty. Mr. Hobert, of New Jersey, will arrange fully with Miss Dickinson about the places and times of her meetings.

Of the nine Justices of the Supreme Court of the United States one-third are now Democrats. Within the next four years there will in all probability be three more vacancies. If Cleveland should be re-elected, the Bench would stand six Democrats to three Republicans before the end of his second term.

The Secretary of the Interior has decided the case of Guilford Miller against the Northern Pacific Railway in favor of the settlers. The Secretary's decision covers the case of at least 2,000 settlers in Washington Territory in conflict with railroad corporations. All these settlers will be protected by this decision.

A straw indicative of the political wind comes from Plainville, Mass. That town has a Mugwump club of 65 members who all voted for Cleveland in 1884. In 1888 every man will vote for Harrison and Morton.

T. J. Goodin, who "has always been considered a perfectly honorable man," and who is Treasurer of the county of Rawlins, Kan., has disappeared, and his accounts show a shortage of about \$12,000.

The President's letter of acceptance may be expected some time during the debilitating period of dog days. We call upon him, in the name of an anxious and uneasy country, to make it short.

The principle of the free trade list in the Senate bill is that it shall contain only such articles as do not come into competition with the products of the United States.

Pope Leo is said to be at a loss how to dispose of 100,000 bottles of wine and 30,000 pairs of slippers which he received as jubilee offerings.

KNOWN BY HIS BUTTON.
A New Scheme for Identifying Physicians.

New York, August 1.—An olive-colored button adorned the lapel of Dr. James E. Briggs' coat as he started out to-day from his office, 111 West Thirty-third street, to visit his patients. He has worn the button for three months to the wonderment of many of his patients, who could not imagine whether he was a Knight of Labor or belonged to some secret political organization. The olive button simply signified that he is a physician. He is a believer in doctors wearing some distinction of dress or insignia. Dr. Briggs said to-night that often there were accidents on boats and trains, and even in the street, when a few moment's time meant a great deal to the patient. A doctor might be near and the olive button or hat band would designate him, and he could be called to the injured man at once.

In a country town, the doctor said, a physician twenty miles away was sent for, when there was another boarding for part of the Summer not a quarter of a mile away, though no one knew he was a physician. On excursion and on passenger boats the cry was often heard, "Is there a doctor on board?" A mark of designation would be noticed, and the physician or surgeon found quickly. Clergymen were distinguished by their dress, why could not physicians be?

Competition in Road Building.

HELENA, MONT., July 29.—There are now 1,000 men at work on railroads between Coeur d'Alene and Burke, Idaho, 600 of whom are in the employ of the Oregon Railway & Navigation Company, and the balance in the service of the Northern Pacific. The Coeur d'Alene Railway & Navigation Company was the first modern transportation service in the Coeur d'Alene mines. The Northern Pacific built a spur from Hansen Junction to Coeur d'Alene City on the Coeur d'Alene lake. Here the Coeur d'Alene Company built docks, putting a line of freight and passenger steamers on the lake, and running them from Coeur d'Alene City to the old mission on the Coeur d'Alene river, whence the narrow-gauge railway was built to the mines. They are now building a line through Fourth-of-July Canyon to connect with the narrow-gauge at Mission and are making preparations to replace the narrow-gauge with a standard gauge road. To accomplish the latter feat they are forced to change the location of the narrow-gauge line at many points in order to obtain a roadbed that will not be too expensive to operate. It is this that the Oregon Railway & Navigation Company object to, and their forces are on hand to select a route of their own through canyon passes to the mines. Rival forces are now working side by side and are making the dirt fly with great rapidity.

The Duty on Sugar.

WASHINGTON, August 1st.—There has been a great struggle in the sub-committee of the Finance Committee of the Senate, which is preparing a tariff bill as a substitute for the Mills bill, with regard to the duty on sugar. There is a disposition among the Republicans in the East to make a cut of fifty per cent. on the tariff on sugar. This feeling has been so strong that it has been requested heretofore that the Republicans' measure to be prepared by the Republican Senators would make this heavy cut. Only two States in the North have stood against it—California, on account of her prospective beet-sugar industry, and Kansas, on account of her prospective sorghum sugar industry. The representatives of those two States here, fully and intelligently presented the case to the Senatorial sub-committee. After hearing the arguments of the Californians and Kansas people, the sub-committee has decided not to make so heavy a cut as 50 per cent. of the present tariff. It has decided that a reduction of the present duty of about 25 per cent is all that should be made, in view of the splendid prospects of the sugar interests of California and Kansas.

Desert Lands.

WASHINGTON, August 1.—Land Commissioner Stockinger has held for cancellation seventy-nine desert-land entries in Wyoming Territory, aggregating 47,000 acres.

Senator Stewart introduced the following resolution in the Senate to-day. It went over for consideration until tomorrow:

Resolved, That the Secretary of the Interior be directed to furnish the Senate with a list of cancelled desert land applications, with the names of the applicants and the amounts paid to the United States on each application respectively, and to state whether, in his opinion, such applicants or any of them are equitably entitled to be reimbursed for the money paid on such application to the United States, or any part thereof; and also what legislation is necessary to enable the Commissioner of the General Land Office to settle with such applicants on equitable principles.

DeLesseps rises to remark that the Panama canal will be opened for traffic in 1890. We can wait until 1895.

BRITISH GOLD FOR CLEVELAND.
English Manufacturers Said to Have Contributed \$2,000,000 for His Campaign.

New York, July 29th.—Rumors are current that British gold has been subscribed in large sums to help re-elect Cleveland. It is the belief of many who are posted that the Democrats will virtually have barrels of money sent over from England within the next few weeks to scatter throughout the country in the interest of the free traders. A gentleman who arrived from England recently declared that he never saw Englishmen so deeply interested in American politics before, and nearly all were anxious to see President Cleveland re-elected, because he represented the true British idea of free trade. He heard and fully believed that English manufacturers had already subscribed nearly \$2,000,000 towards the Democratic campaign fund. Thousands of Cleveland badges and buttons, he asserted, had been manufactured there and sent to this country to be distributed free. The Cobden Club, in London, was bestirring itself and doing all it could to assist President Cleveland financially and otherwise. Secretary Fassett of the Republican National Executive Committee, was to-day asked if he has heard anything about British gold being sent to this country to help the Democrats. He said that he had heard a great deal about it, and rather thought that where so much smoke prevailed there certainly ought to be some fire. The Cobden Club, of London, he averred, was, according to direct accounts, doing yeoman's service for the Democratic cause in the way of sending over badges and buttons. It is believed that the fund reported to have been subscribed by the British has reached this country and is now at the disposal of the Democratic National Committee, with and by the advice of President Cleveland.

The Only Perfect Remedy

For bilious constipation, dyspepsia and kindred ills is the famous California liquid fruit remedy, Syrup of Figs. It is easily taken, and perfectly harmless. Sold by Wm. Planiger, Reno.

THE RENO BUILDING BILL.—A large number of bills for public buildings in the United States have passed the Senate without action in the House. Among these is the bill which passed the Senate appropriating \$850,000 for the purchase of a Postoffice site in San Francisco, which the House seems willing to pass. An effort was made Tuesday morning by Senator Spooner, Acting Chairman of the Committee on Public Buildings and Accounts, to amend the Sundry Civil Service bill by adding appropriations for these public buildings. It was contended by the Committee on Appropriations that it would require between seven and eight millions to carry out this project. The Senate refused by a vote of 23 to 21 to enter upon this character of legislation; consequently the appropriation for the San Francisco Postoffice site must abide by the action of the House on the Senate bill there pending. It also defeated Senator Stewart's proposition to add \$60,000 for a public building at Reno, Nevada, and we must take our chances of the House passing the Senate bill there pending.

FRUIT MARKETING AT NEWCASTLE.—The Sacramento Record-Union says: It is stated that so good has been the demand for Newcastle fruit in the East during the present season and so satisfactory the prices obtained, that everything there in the fruit line is being cleaned out in good shape. The fruit men around Coloma, Uniontown, Gold Hill and other places in El Dorado county, even as far as thirty miles distant, have been quite largely marketing their fruit at Newcastle. The Newcastle people have as good facilities for handling the fruit crop as any place in California, the fruit being received at one door of the fruit houses; the packages are sorted over and then loaded in the cars at the other end of the buildings, within one hundred feet of where received from the producer's wagon. The fruit is therefore picked, packed and marketed in the forenoon, loaded in the cars in the afternoon and evening, and started by train the same evening for the East.

ADAM AND EVE.—The Rentz-Stanley Novelty and Burlesque Company are booked to appear at McKissick's Opera House next Thursday evening. The above is a big "foot-handle" show which will doubtless draw crowded houses. The principal attraction, according to the Eastern press, is Sara's high-kick dance, the wonderful evolutions of which makes it incumbent upon her to dress in black, being less showy than the fast colors. Secure your seats at Nasby's Bazaar.

TASSELL TO THE FRONT.—By reference to Tassel's advertisement in another column it will be seen that he is ready to meet all requirements in his line of business. His stock is complete and embraces everything that can be found in the Eastern and Coast markets. His prices are astonishingly low and cannot be equalled in the State. Call and examine the stock and inquire the prices and you will be convinced that great bargains are being offered.

DOING WELL.—The Battle Mountain Central Nevada says: The Pittsburg gold miners are producing on an average one thousand dollars per day in gold bullion. Some little trouble has been experienced on account of water, but that is being rapidly overcome by a tunnel that is being driven into the bedrock, where the water channel of the creek lies. The tunnel already furnishes a good supply of water, although it has not yet reached the bedrock. The miners are looking well and have enough ore in sight to run the mills for two years to come.

Syrup of Figs

Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dislodge Headaches, Cold and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Sold by Wm. Planiger, Reno.

It is common to hear of "dyed-in-the-wool" Democrats. After next November the party epitaph will be "Died of free wool."—Indianapolis Journal.

W. H. Carr, a prominent Democrat of Essex county, N. Y., declares he is done with Cleveland, and gives his unqualified support to Harrison and Protection.

The talk about the sheep of this country being owned by ranchers don't count for much in face of the fact officially stated that only 7,000,000 out of 42,000,000 are thus owned.

The Brooklyn Times thinks that a daylight trip from New York to Boston through the manufacturing towns which crowd the various railroad lines, is the best cure for the Free-trade heresy.

The Boston Journal has found a grocery firm which employs 23 men. Four years ago 22 of these men voted for Cleveland and 1 for Blaine. This year 1 will vote for Cleveland and 22 for Harrison.

C. B. Lockwood, a wholesale hardware dealer, of Cleveland, Ohio, who bolted Blaine and made speeches for Cleveland in 1884, announces that he cannot support Free-trade Democracy and will work and vote for Harrison and Morton.

The President's message has committed the party to Free Trade, and any declaration that was not in accord with the measure would discredit the party. The platform of 1894 was proposed and carried out as a matter of expediency. It was then said that the Democrats wanted to get into power and then they would declare for Free Trade. They are in power, and now the opportunity has come.—Henry Watterson, Chairman Committee on Resolutions at St. Louis.

The Lewiston, Maine, Journal reminds the Cleveland organs which are making so much noise over the recent order applying the Civil Service rules to the railway mail clerks that the order was not issued until hundreds of skilled clerks had been discharged for political reasons and green Democrats put in their places. After the service had been filled with Cleveland shouters, to the great detriment of the efficiency of the department, the order was issued putting the service under the rules.

It is estimated that between wool-growers, the men employed by them and the families dependent on these, there are about four million persons directly or indirectly interested in the growing of wool in the United States. This does not include those who are interested in woolen manufacturing and directly or indirectly dependent on it for a livelihood. The repeal of the duty on foreign wool is a direct blow at all these people, and while ruining them would not benefit anybody else.—Indianapolis Journal.

Kisses.

A prominent physician calls the kiss "an elegant disseminator of disease." He says, "fever is spread by it, so are lung diseases. He maintains that if the kissing custom were driven out of the land 'It would save one-tenth of one per cent. of human lives,' which are now sacrificed. Out upon the gnarled and sapless vagabond! Evidently kisses are not for such as he and the old fox says the grapes are sour. Let him devote himself to making our women healthy and blooming that kisses may be kisses. This can surely be done by Dr. Pierce's Favorite Prescription which is magical in its effect, upon all diseases peculiar to females. After taking it there will be no more irregularity, no more backache, no more nervous prostration, no more general debility. All druggists.

To regulate the stomach, liver and bowels, Dr. Pierce's Pellets excel. 25 cents a vial; one a dose.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21.-aw f. v

The San Francisco Bulletin says: Ten or twelve years ago the prospects were not very bright for a competing transcontinental road to California. The one through route to the East, the Central Pacific, was able to handle all the traffic without embarrassment. The extension of the Southern Pacific Railroad to Galveston, at a later date, was considered by many in advance of the requirements of the times. But five routes now span the Continent and each one is doing a profitable business. The carrying capacity of at least three of these routes—the Central, Southern and Atlantic—is strained to its utmost. These railroads have actual terminals in California. Practically the termini of the Northern and Canadian Pacific Railroads are also in this State. The steamships of the latter make regular trips to this port to discharge and receive passengers to and from the Orient and to and from the Eastern end of the line. The California and Oregon Railroad is virtually a California extension of the Northern Pacific Railroad, although not owned or controlled by it.

The least promising of these great transcontinental enterprises was the Canadian Pacific Railroad, for the reason that it traversed a sparsely settled route, and a territory with limited resources. But it made a net profit last year of nearly two millions of dollars, and, for the first six months of the current year \$1,113,870, the latter sum being an excess of \$172,533 over the net profits of the road during the corresponding period last year. The net profits of last June are reported at \$390,938, which is a gain of \$2,235 on the profits of June, 1893. The extraordinary financial success of the Canadian Pacific is a marvel, even in these days of wonderful development.

The success of all of these five transcontinental routes has been large dependent on the trade of California. This is evident from the eagerness with which each of these road struggles to secure it. The Northern Pacific Railroad has no doubt profited immensely by the through connection established by the California and Oregon Railroad between Portland and San Francisco. And although that connecting link is as yet in a very imperfect condition, it is already crowded with work. The rapid growth of business along that route has hastened the laying of a double track between Port Costa and Oakland, and is materially hastening the building of a railroad bridge across Carquinez Straits.

The advent of each of these rival railways into California has created a network of local roads that are feeding them with business. And the rapidity with which the State is filling with population increases the necessity for more of these feeders.

In the meantime the plans for more transcontinental railroads terminating in California are maturing. Some of these corporations have had their surveys in the field for many months past, seeking the most convenient points to enter the State. When the United States census of 1890 was taken California had only one transcontinental railroad. By the time the next census will have been taken some of the railroads now trying to gain admission to the State will have crossed the border. At all events, the census will surely present a wonderful showing of the progress of the State under the stimulation of the railways now in operation, all of which have prospered far beyond the expectation of the most sanguine.

CHIEF-JUSTICE FULLER'S OPINION.

The Sacramento Bee remarks: Chief-Justice Fuller is of one opinion with the President who appointed him upon the question of the tariff. Two years ago he said to a reporter: If there be any one principle to which the Democratic party is committed, it is the "right for revenue only."

We are living under a Whig administration to-day. If that is what the country demands, so be it; but it is impossible for the people to assume that, by electing a Democratic President, they can prolong a protective tariff.

He was right. "It is impossible for the people to assume that, by electing a Democratic President, they can prolong a protective tariff," and after Cleveland's anti-tariff message and the Mills bill they have ceased to indulge any such assumption. The only way to "prolong a protective tariff" is to elect a Republican President. If Chief-Justice Fuller is to be believed the uncertainty surrounding the position of the Democracy upon the tariff question is removed and the issue narrowed to the satisfactory query: "Is a protective tariff an advantage to the American people?" The answer to this is to be heard in the language of the mills and factories, in the millions of happy American homes, in the madhouse, independence and thrift of the American workman. It is to be found in the financial credit of the Nation, in her bursting treasury and her unprecedented and unapproachable prosperity and progress. But we know that the cautious, crafty Democrats who manipulate the organization will not permit Chief-Justice Fuller's definition of the standing of the party to rest. Mr. Cleveland himself declares that the question of free trade in the campaign is irrelevant. Wm. L. Scott and Chairman Barham are equally quick to assure the people that the Democracy does not contemplate free trade or what is its nearest practical approach, a tariff for revenue only, as Mr. Fuller said. So, notwithstanding so distinguished an authority as the new Chief-Justice, we will probably have to go blundering through the campaign trying to find out where the Democratic party really stands and what it actually means.

PLATFORM AND RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century

Resolved, That a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National bank, without regard to the increase of population, the growth of commerce, or the necessities of the people, as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both

Resolved, That the attempt to substitute National currency, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people, that the money ring or trust, which has usurped the sovereign power of the Government, is illegal, and that the Government, when it has nationalized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for the law, and that the Government, when it restores or trusts be destroyed and equal rights restored to all people

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, and thus increases the value of the value of bonds, and enriches the users while it depresses the price of labor and property.

Resolved, That we favor the nomination of a man for President who is personally indebted in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people.

Resolved, That the trickery of the President and his advisers by which they prevented a vote upon the question of representation on equal basis, their amendment to the tariff and purchasing bill equals the villainy of the secret and fraudulent demoralization of silver in 1873.

II

Resolved, That we are in favor of the protection of home industry, and that the laborers of his country have a right to all the work required to supply the people of the United States, and that we insist that every citizen of this country, and to that end will protect the waterworks from competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both houses of Congress, and that no man or woman, nor money, trust, or influence, either as agent or boss, is most active in defending

III
Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protection

REMARKS AND CONDITIONS.

Nomination to stakes must be made to the Secretary on or before the 1st day of August 1888. Entries for the purses must be made two days preceding the race at the regular time for closing entries as designated by the Board of Directors. The owner of a horse in a stake must name to the Secretary in writing which horse will start the day before the race, at 5 P. M. Horses entered in purses can only be drawn by the consent of the judges.

Stakes may be run for in Nevada and California, east of the Sierra Nevada for six months prior to day of race.

Entries to all trotting races will close August 1st.

Five or more to enter and three or more to start in all races for purses.

National Trotting Association rules to govern trotting races. Pacific Coast Blood Horse Assoc. rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified, five to enter and three to start. But the Board of Directors may alter the number from five to three, by the withdrawal of a proportionate amount of the purse. Entrance fee, 10 per cent on purse to accompany nomination.

National Trotting Association rules to govern running races. Five to enter and three to start, except in any two classes alternately. If necessary to finish any day's racing, or to trot a special race. A horse making a walkover shall receive the entire purse money paid in advance.

When less than the required number of starters appear, they may contest for the entrance money, to be divided as follows, 65% to the first and 35% to the second.

If the race distance the field will only take start money.

In all the foregoing stakes the declarations are void unless accompanied by the money.

Please observe that, in the above stakes, declarations are not required to be made on the day preceding the race.

In all races entries not declared out by 6 P. M. of the day preceding the race shall be required to start.

Where there is more than one entry by one owner, the true interest, the particular horse to be driven, and the driver, must be declared on the day preceding the race. No added money for a walk-over.

Racing colors to be named in entries.

Each day's racing will require to be required to wear cap of distinct colors which must be declared in their entries.

Each day's races will commence promptly one o'clock P. M.

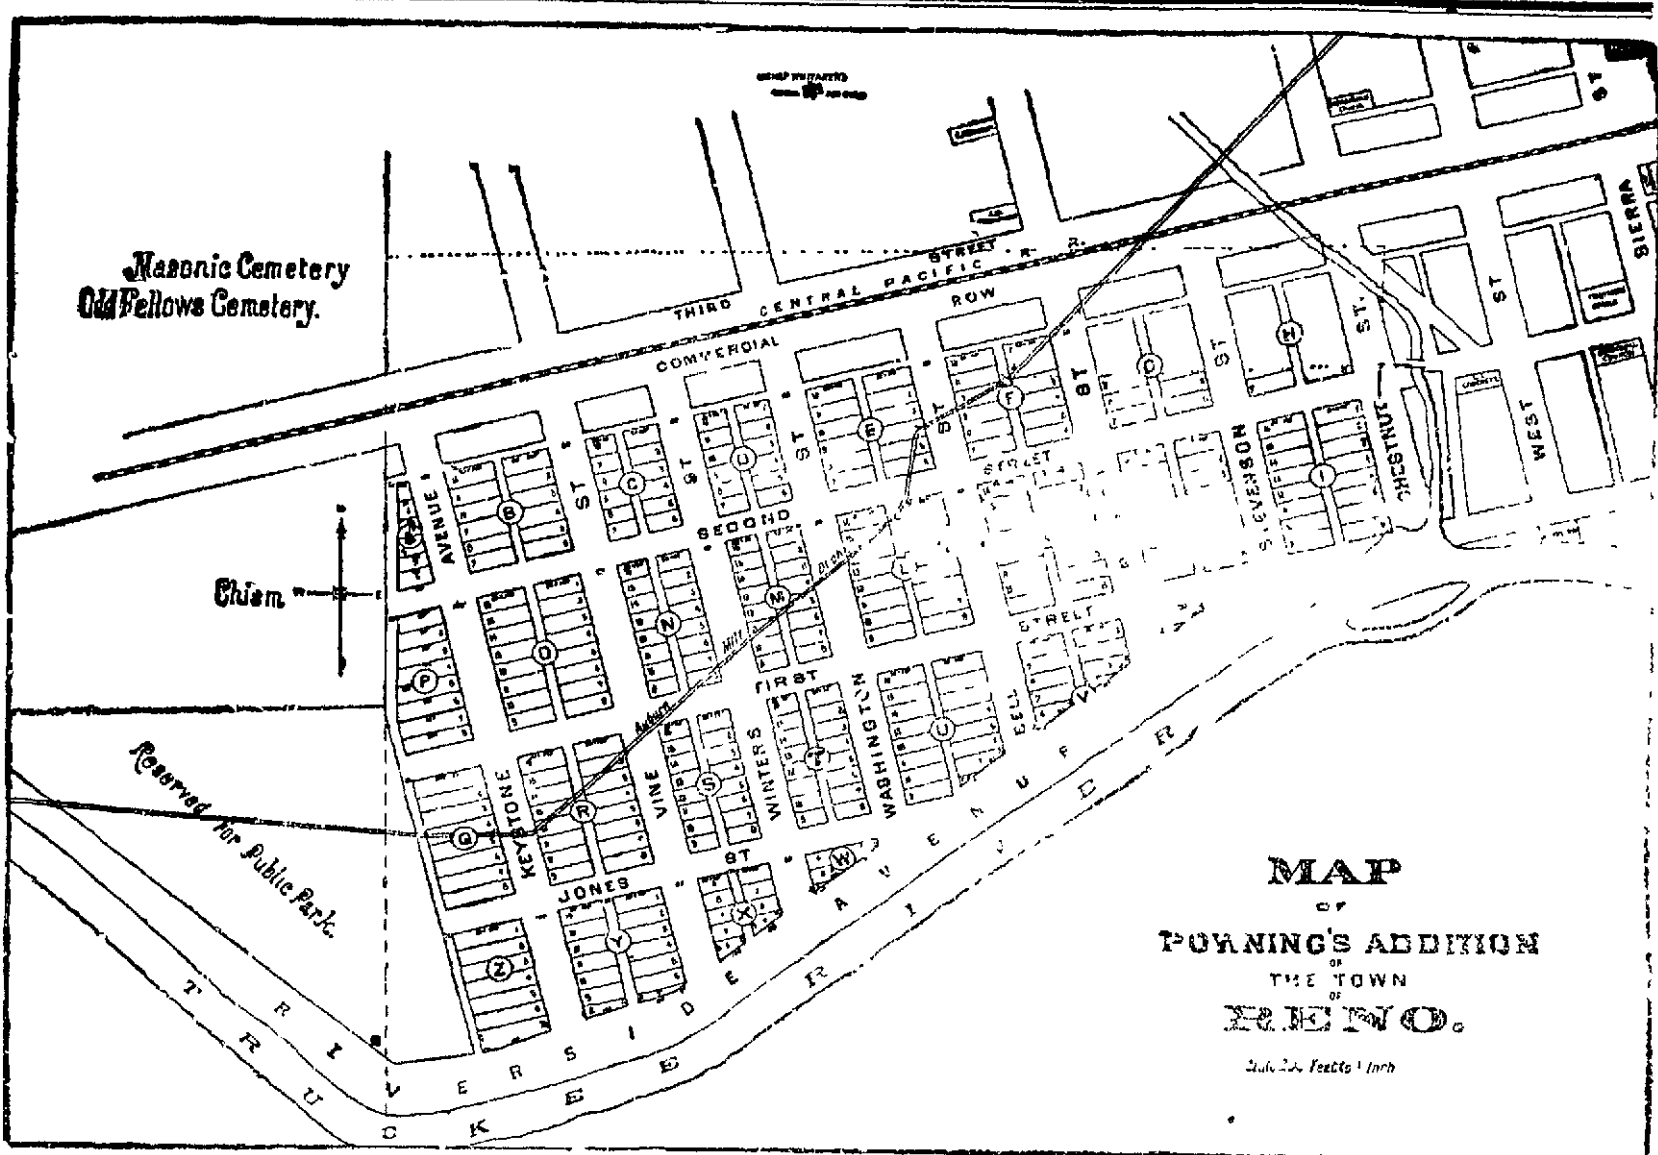

All entries must be directed to C. H. Stoddard, Secretary, Reno, Nevada.

The Ormsby County District Fair, at Carson City, begins September 24th and ends September 29th. Each day's racing, gives \$7,500 in purses and premiums.

The Humboldt County District Fair begins October 2d, and ends October 5th. Each day's racing, gives \$5,000 in purses and premiums.

The State Agricultural Society, built a new track, located half a mile from town, and is now being of such a character to make it one of the best in the West.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.
